Behavioural short-form ethics applications

When can the short forms be used?

- If only one research method is used – either surveys only or secondary use of data only
- If the study falls within the Minimal Risk category
- If the study is behavioural
- Both single and multi-jurisdictional (harmonized) studies are eligible

NB. In-person administration of surveys (not interviews) may use the shortened form, as long as there is no likelihood of the survey questions deviating from the structured format. If the purpose for conducting the survey in person is to allow for more probing questions to supplement the survey questions, a full ethics application will be needed.

When can the short forms NOT be used?

- If you are conducting interviews, whether by phone, video conference, or in-person
- If you are using multiple methods of data collection (e.g. interviews and surveys)
- If the application has already been submitted; existing applications may not be converted to the short application forms

Applications will follow the same submission, review, and approval steps as other ethics applications.

How to complete the short ethics form

1. Complete pages 1 through 4.B. BEHAVIOURAL STUDY REVIEW TYPE as usual
2. Proceed to 4.C BEHAVIOURAL STUDY REVIEW TYPE - HUMAN ETHICS APPLICATION
3. You will need to answer “no” to the first two parts:
   - 4.7.A. Creation of a Research Database or Registry
   - 4.7.B. Is the purpose of this application exclusively to obtain approval for the creation of a research database or registry?
4. For Surveys
   - Select “yes” for 4.8 ("Is this a minimal risk study exclusively using a survey for data collection?")
   - Advance to the new page K. Survey - HUMAN ETHICS APPLICATION
   - Answer all the questions on page K
5. For Secondary Use of Data
6. After you complete pages “K” or “L” you will be able to proceed directly to page 9.

7. Attach all relevant supporting documents to page 9 as you would for a full ethics application.

The table below briefly summarizes the content you will need to provide. See the application guidance notes for more detail.
